

Roulette

INTRODUCTION

Roulette is one of the oldest and most popular casino games in the world. It is also one of the simplest to play. The game of Roulette consists of a wheel with either 37 or 38 stops, and a ball that can land with equal chance in any of those stops. Players make wagers by placing chips in the betting areas of the Roulette table. After all bets are placed, the ball is spun and eventually lands on a number.

Wagers placed on the winning number or on groups that include the winning number are paid a multiple of the bet. The house collects all other wagers.

HOW TO PLAY

To play the game of Roulette, place your bets by placing chips on the Roulette table on the region you wish to place your bet. Once bets are closed the dealer will spin the ball. After the ball lands on a number, losing bets are removed from the table, and winning bets are paid.

Types of Bets and Payouts

There are 16 types of bets in Roulette. By placing the chips differently, you can bet on 1, 2, 3, 4, 5, 6, 12 or 18 numbers.

The following table is a list of the types of bets and the corresponding payouts for a winning bet.

<u>Bet Category</u>	<u>Payout</u>

Inside Min/Max

Look here to find the minimum and maximum total of the inside bets allowed. Inside bets are bets placed directly on a number or between numbers.

Outside Min/Max

Outside bets are the large groupings of numbers along the "outside" of the table. These bets include 1st 12, 2nd 12, 3rd 12, 1-18, 19-36, Even, Odd, All Reds (the red diamond), All Blacks (the black diamond), and the 12-number columns at the end of the table.

Please note that the above guidelines are general guidelines and may vary according to game type.
